Mr Kellogg's Address to Woman and Children.

Mr Kellogg will deliver a Temperance address before the Women and Children of Bangor at the Hammond street church on Saturday afternoon at two and a half o'clock

Unmitigated Barbarism of Slavery sustaining Locofocoism.

Governor Smith of Virginia, a dyed in the wool and flaming prince of Locofocoism, in his recent message to the Legislature of that State recommends the atrocious project of a law authorizing the Governor of that State forcibly to expel from it the whole free negro population embracing forty nine thousand eight hundred and forty two souls This great company of human beings, admitted by the laws of Virginia and of all lands to be free, are, if Governor Smith can have his way, to be driven out from their homes and their property and forced into other States however much against their wishes and their will And this is in accordance with locofoco democracy This is the recommendation of the *democratic* Governor of an American State, of proud Virginia, which boasts herself of her political purity

A state, she insists upon it is everything, as against the national compact, and not a hair of her head must be touched, but man, a freeman, the maker of States is now declared to be nothing If perchance a drop of African blood flows through his free veins

If our political theory be not a farce and a humbug, then each and every one of these freenegroes in Virginia has as much right to life and residence in Virginia as governor Smith himself This recommendation so shocking to all sense of justice, so abominably inhuman, so utterly inconsistent with all our political theories and professed principles, does after all, only unfold the true character of modern slavery controlled locofocoism It is but the development and outbirth of the spirit and essence, as it seems to us, of the party which put Mr. Polk in power and which sustains him in prosecuting a war for the perpetuity and extension of slavery The apparent successes of the slave power in the Union has emboldened Gov Smith to take a step a little longer that his contemporaries, although in the same direction He is a pattern Locofoco of the true stamp and he wishes at once to avail himself of all the elements of the principles of his party as they exist

Here is an extract from the message containing the infamous recommendation

"I regard the free negro population as one of our greatest evils, and to get rid of it as one of our highest duties Great as may be the apparent difficulty of accomplishing this desired measure, it would dwindle into insignificance, under a bold and decided treatment But all I now propose is the passage of a law providing that each county, at our next annual election, shall have a right to vote upon the question of removing the free negroes, within their respective limits, beyond the Commonwealth—that all counties voting affirmatively shall communicate the fact to the Executive, who shall be required to remove the free negroes within such counties after six or twelve months notice, and that such population shall not hereafter be permitted to reside therein Such a law, dependent on the vote of the people within their respective counties, if adopted in a single county—relieving the white man and the slave therein of a great and unmitigable evil, inflicting no inhumanity upon the free negro, but, by placing him in a community entertaining other and it may be more generous views of his rights and capabilities, actually improving his prospect of bettering his condition it would commend itself in a very high degree to our constituents, and will gentlemen, find favor, I sincerely hope, with their representatives Even if this proposed law should not be adopted in a single county, its mere existence, with the power at any time to give it vitality, would materially aid us in the management of this unhappy race"

This intolerance against the free negroes in Virginia is wholly on account of the existence of slavery there Thus this dogge curse of American slavery is perpetually warring against freedom in all its forms, and the free negroes being the most helpless, on account of prejudice against color, are the first to feel the iron hoof of the encroachments of slavery

Its onward movement has been accelerated by the union with it of modern democracy and in its drunken glee of success in the acquisition of political power, it shows its bold and bloody hand in a proposition forcibly to drive out, though by the scourge and the faggot, nearly fifty thousand free citizens of one of the States of our Union! Here is a subject of deep and earnest reflections for all Americans

☞ The juvenile singing school under the instruction of Mr Lucas is getting along finely, and making surprising progress Mr Lucas is a perfect master of his business, and it really seems surprising to us that of the four thousand children in this city only about one hundred and fifty are improving the present admirable opportunity of learning to sing When the present term shall close, and our people shall become acquainted with the progress of this school, there will be many parents who will regret that their children did not attend the school, but it will then be too late to avail themselves of the skill of Mr. Lucas, as he will then leave the city

We have made ourselves acquainted with the progress of this school and most cheerfully and heartily recommend to our citizens generally to send their children, and thus lay a sure foundation for their becoming good singers There is yet an opportunity for gaining admission to the school, which is held every Saturday and Wednesday afternoon at Market Hall

Temperance Address this Afternoon.

Mr Kellogg will deliver a lecture before the women and children of this city this afternoon at Hammond street Church It is said by those who have listened to addresses of this kind delivered by K. that he succeeds admirably in enlisting the feelings of the little folks in the cause of temperance He adapts his style of address to his hearers, secures their attention, excites their sympathies and gets a lodgment for truth in their minds

We hope there may be a large attendance this afternoon.

☞ The firm of Mason & Tuttle, Advertising Agents, Post's Building, New York, has been dissolved. J Mason now conducts the business, as heretofore

Rev Mr Pomroy's Temperance Address this Evening.

The sixth meeting of the regular series of Temperance meetings under the direction of a committee chosen for that purpose, will take place at Market Hall this evening

Rev Mr. Pomroy will address the meeting, giving an account of the temperance cause in Europe and on the Continent with such suggestions as may seem appropriate It is hoped there will be a full meeting and that the friends of this series of meetings will be ready by liberal contributions to relieve the committee from their embarrassments and enable them to go forward in continuing the meetings for several weeks to come

The address will undoubtedly be one of great interest to our citizens, while the cause these meetings would promote, is worthy the attention and support of every man in the community, since the welfare of individuals, families and society at large is involved in it.

☞ Sand Key has again made its appearance, fifty feet to the westward of its former location, and where the Lighthouse originally stood there is now two feet of water Capt Waldron, late commander of Cutter Morris, has erected a staff sixty feet above the level of the sea, with a large black ball at the head, on the new Sand Key, which can be seen six miles distant in clear weather

☞ We have received from the publisher, J K Wellman, of New York, the November number of "ILLUSTRATED BIBLE" It is a rich work,—the illustrations elegantly colored, and the paper and press work fit for any parlor table in the land, and the matter scientific and popular The price is but three dollars a year, and should be generally circulated and studied

☞ We are requested to state that the hours of worship in the Universalist Church have been changed from morning and afternoon, to afternoon and evening Services will be held en to-morrow, and through the Winter, at 2 and 7 o clock P M The morning hour is to be devoted to the Sabbath school and Bible class

The fourth of a series of lectures on controverted texts, will be delivered at the Church to morrow evening, at 7 o clock

☞ The following is the number of vessels, and amount of Tonnage, built in the District of Bath, for the past season —

	Tonnage
5 Ships	2893 81
10 Barks	2848 37
15 Brigs	2976 08
16 Schooners	1934 54
Total new tonnage	10 582 85

☞ Alison, the historian, says there is no unmixed good in human affairs—that the best principles, if pushed to excess, degenerate into fatal vices, and the sternness of justice is but one step removed from the severity of oppression'

☞ William Cox and his wife, of Alexandria, La, stole a slave, named Margaret, and carried her to New Orleans for sale They conveyed the stolen "property" to New Orleans in a box, with a hole in the top, through which provisions were put during the night

☞ The Municipal election in Lowell on Tuesday last resulted in the re election of Mr Bancroft Whig Mayor, and the Whig candidates for Aldermen and members of the Common Council generally succeeded Dr Huntington the former Mayor, was chosen an Alderman over one of the regular candidates

☞ Col James L Child has been appointed military store keeper of the Kennebec United States arsenal, at Augusta, in place of Lieutenant Wainright, who has been ordered to Mexico

☞ Two hundred German Papists renounced the Catholic Religion at New York on Saturday last

☞ John Quincy Adams is steadily improving in health as we learn from the Boston Whig

☞ The New York Gazette, in some remarks on the President's Message, very happily says —

"There is certainly a droll inconsistency in Mr Polk beginning his chain of demonstration, by setting forth our claim of indemnity against Mexico for spoliation upon our commerce, when he himself has so recently vetoed the bill by which the indemnifications of France would be paid over to those to whom they are justly due"

Sub-Treasurer Robbed.

We regret to learn that Ex Governor Bouck our celebrated New York Sub Treasurer, has lost his gold watch and several *hard* dollars, which some expert thieves abstracted from his pockets at one of the hotels

Liverpool Timber Market,

Nov 18

Since the commencement of the month, vessels laden with colonial wood have been arriving in succession to an unusual and unexpected extent, amounting in number, to 35, measuring 22,000 tons, the great influx in so short a time, has been occasioned by the simultaneous arrival of vessels having very quick, with those having long, or ordinary passages As soon as these extensive arrivals commenced, some of the importers urgently pressed to effect sales, whilst the usual purchasers stood aloof, and thus, there has been nearly a suspension of sales, none being practicable unless the article was of good quality, and at an important reduction, and then only to a very limited extent, for the more the market was pressed the greater the reluctance to purchase, the consequence is, that with very few exceptions the cargoes are being stored, but we are in the belief, that as the pressure of the present time subsides, the market will be restored to its wonted tone, for the demand for consumption continues very good considering the season of the year, but as to future prices, the opinions expressed in our last circular, now prove to have been too sanguine as to their being supported, yet, that opinion was, at the same time, qualified, by our then stating, "that much hinges on the extent of the supplies yet to come forward"

Since the 1st February, 145,277 tons of shipping have arrived laden with wood, same time last year, 192,259 tons

Such limited sales as has been made since the commencement of the month, have been at the following rates, viz Quebec Yellow Pine 16d to 17½d, Red Pine 21d to 24d, St John Yellow Pine, 18 to 20 in, 17½d to 19d, Birch 14d to 15½d, per foot; Pine and Spruce Deals, 2½ in, 2½d to 2¾d per foot

Birch Timber is not plentiful St. John, or Nova Scotia 15d to 16½d per foot.

☞ Some city poet has worked out the following specimen of literature and rhyme

O, Sally, lie my chief delite,
My heart for you, chiefteen

An Enormous Ourang Outang.

An enormous ourang outang had been playing some pranks in the neighborhood of the Mt. Andrew mission, but was at length shot, and found to measure between five and six feet in height The Rev Mr Russell gives the following account of him in the Luminary —

"Tuesday before last a man went to cut some timber for his new house, and by some means disturbing the ourang, he sallied forth upon him very angrily, obliging the poor fellow to leave his axe and clothe and swim the lake to save his life, which his hard swimming liked to have cost him any how Last Wednesday morning, another man was chased over a hundred yards by the beast, which holding a club in his mouth came very near overtaking the poor fellow — The same afternoon, another man was made to leave his rafters in the woods and fly, and running over a stump hurt himself very much

On Friday last he took possession of an old woman's farm where he remained all day — That week I heard of the death of Mr George Crawford, and was advised to go down to Monrovia and settle some business I hired three men, one carried my clothes, another some rice and provisions, and the third was to help me over the water Little Jones, followed me to the little rivulet, May, went on before The rivulet was swollen very much, to over 60 feet wide, jumping and roaring tremendously — Little Jones must be at something, so he jumped in and swam to the corkwood, which the waters had left On reaching the raft, and trying to get on it, who should speak to him from a tree close by, but Mr Ourang Outang The little fellow just fell into the water and in a few moments was standing with a sharp eye and restless foot in the rear of me

I could not see the creature, and was indulging in a hearty laugh at little Jones, who had no laugh in him I imitated the ourang and made other noises to make him go off, thinking that if he did start that way, I would hear him coming In the midst of my glee, who should suddenly appear within a few yards of me, unperceived until he made his tremendous 'Whoo, Whoo, Whoo, but a huge ourang outang, looking to be some six feet high, with a broad breast athletic arms and a white face For let those remember who ourang outang or, that a large majority of these animals have white, and not black, faces

I have seen several of them after they were shot and others alive, and they were almost all white, hairy faced fellows I do not intend to say by this that the white man is the intermediate link between us and the lower animals, but only that these are white faced ourang outangs

Of course I had but little time for ceremony True I had in my hand a spear, and a Barlean cap on my head, for Dr Lugenbeel, and I did not start from home that morning for war, and doubted the use of the spear, with success, on such a giant Had you been there to have seen me run, you would hardly have thought me just then a lame man I assure you, I got over the muddy slippery path to the best of my ability — As for little Jones, it would be useless to undertake to describe his velocity I did get a glimpse of the border of his shirt We met one man, who ran our pursuer into the woods On Sabbath he visited a town about three miles from here All the people save some old women, were harvesting rice in the fields The old women fled and the ourang outang, after eating all the plantains he saw, went into the woods —African Luminary

A Royal Editor.

The King of Bavaria is about to start a newspaper, which, rumor says, he is to edit himself We can imagine the king sitting on the throne, with an immense pair of scissors in one hand and the paste brush in the other, writing his *Zeitung*, whilst the printer's devil is knocking at the door of the palace calling for 'copy — His Royal Majesty scarcely knows the pains and penalties of an editor yet, or else he would not be so ambitious of rushing into newspaper authorship How will he like opening three hundred letters a day,—every one of them finding fault with some part of his paper? How will he like being knocked up at three o clock in the morning to come down to the office, and open an express? How will he like collecting his quarterly subscriptions, or answering his correspondent's inquiries—Whether his Majesty will be graciously pleased to take out their subscriptions in coals, candles, German sausages, sauer kraut, seltzer water, or Bavarian beer? How will he like some enraged author or angry actor of his Royal Theatre, or pugilistic member, a German Grantly Berkley, entering his office, and, not knowing he is the king laying the horsewhip across his Royal shoulders for some smart personality or witty criticism?—How will he like being prosecuted for a libel or is he prepared to put in the old plea "the King can do no wrong" because the same yarn, of course, would apply to grammatical errors, false syllogisms, erroneous quotations, and all sorts of nonsense, though it is very doubtful whether his readers would take the excuse, and might not write to his Majesty to stop sending in the paper —Punch

Turning Somersets

Mr W O Dale, the great American vaulter threw seventy consecutive somersets at Welch & Mann's circus, Philadelphia, on Saturday afternoon last Also the same number in the evening This has never been equalled —Roch Adv

Yes it has The locofoco party has exceeded even greater agility than this Its somersets have been made in mass and so may be counted by tens of thousands. Van Buren Wright Polk Buchanan & Co, have been among the most expert tumblers, but the trick seems inherent in the family Almost any loco foco will be found ready at a moment's notice to make ten fifty or an hundred somersets according to directions from the Ring master —Eve Jour

Mr Polk attempts the demagogue, in describing to the farmers the benefits which they are to reap on account of the reduction of the corn law duties of Great Britain It is really amusing to read his diatribe where he tells them, as if he were stumping it for Governor in Tennessee, that "they will find a readier sale, and at better prices, for their wheat, flour, rice, Indian corn, *beef, pork, butter, lard, cheese*, and other articles which they produce!" Capital *ad captandum* stuff this to fill up an annual Presidential message!—Baltimore Patriot

"I say, Sambo," said a lusty negro, "have you seen the great *comic* which people talk about so much?"

"Yes Pompey, I seed it wid my naked eye as plain as I see your nose dis moment

"Well, Sambo, can you lighten dis child as to the silosophy of this ere nomena?

"Yes, of course

"Propel wid it

Why you see, said Sambo, drawing himself up with a very knowing air, "de skientific folks pretend it is some wandering scentric orb which goes skylarking about on its own hook, rowlowing just where it is a mind to, same as Dinah does on Massa Moody's hill But my opinion is, 'tis nothing more than Madame Wenus with a bustle on!"

"Dem s my sentiments, exactly

☞ The conundrum that won the silver cup too good to be lost

"Why has Captain May proved himself a dishonest man?"

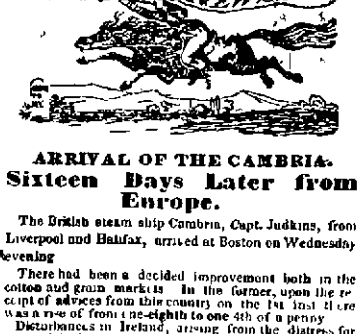
"Because he *charged* the Mexicans with a troop of horse which they never got"

We read in a Pottsville paper of a man who was very much intoxicated the other day, and being arrested was sent to Shamokin vale

"Why, did st you bail him out? asked a bystander

"Bail him out," exclaimed the other, by golly, you couldn't pump him out!"

Let society be tranquillized in the pulpit by the young, as the frog said when he popped his head under the water, on seeing a boy pick up a stone



ARRIVAL OF THE CAMBRIA.

Sixteen Days Later from Europe.

The British steam ship Cambria, Capt. Judkins, from Liverpool and Halifax, arrived at Boston on Wednesday evening

There had been a decided improvement both in the cotton and grain markets In the former, upon the receipt of advices from this country on the 1st inst there was a rise of from one-eighth to one 4th of a penny

Disturbances in Ireland, arising from the distress for want of food, were prevalent especially in the South and West The Marquis of Downshire, and the Duke of Leinster, had been followed by the Earls of Shannon and Enniskillen, and other influential gentlemen, in withdrawing from the Royal Agricultural Society, because dissatisfied with its movements for the public relief

The Great Britain steamer had not been got off, and accounts from her speak very despondingly

BY B HALLECK

To love and be beloved again—to feel
That one heart beats responsive to our own,
To cherish joys that words can never reveal,
Gentle and lovely as the dying tone
Of far off music, to go strongly forth
On life's rough journey, girt with Woman's love,
And woman's truth jewels of priceless worth
That sorrows dim not trials can but prove,
To stand with her beside the shrines where he
Our household god—to feel her true hand press
Our own in silence while within her eye
Glistens the tear of holy tenderness,
To listen to a voice whose every tone
Tells us that we on earth are *not* alone

Chills and Fevers.

Wright s Indian Vegetable Pills are one of the best, if not the very best medicine in the world for the cure of that constant fever because they excel all others in rooting the body of those morbid humors which are the cause not only of all kinds of fevers but of every malady incident to man Four or five of said Indian Vegetable Pills, taken every night on going to bed will in a short time make a perfect cure of the most obstinate case of chills and fever at the same time the digestive organ will be restored to a healthy tone, and the blood thoroughly purified that fever and ague, or disease in any form, will be absolutely impossible

BEWARE OF COUNTERFEITS —The public are cautioned against the many spurious mixtures which, in order to deceive, are called by names similar to Wright's Indian Vegetable Pills

Cured of Piles.

"For five years I was afflicted with what the doctors told me were the Itching Piles I had applied to several physicians, and used many medicines without any relief, till I used the Hay's Liniment, which I purchased of Comstock and Ross, No. 13 Tremont Row, Boston, which cured me before I had used all of one bottle. I was greatly relieved upon the first one or two applications. Most seriously do I urge upon the afflicted to use this remedy before all others. My object entirely in making my case public, is that others may benefit by the afflicted sufferer. EBEN TIGGESMAN, 6 Phenix Row, Boston.

Remedies.

There are so many medicines of doubtful character advertised and puffed in the news papers at the present time that we should have hesitated in the task we have now undertaken were we not most thoroughly convinced from our own personal knowledge, of the facts which we state below

It is of Wistar's Balsam of Wild Cherry" that we would speak and we speak advisedly A lady of our acquaintance, whom we see every day was short time since in what we thought a precarious and not a dangerous state of health A cough had settled on her lungs her frame seemed wasting away, she was obliged to abandon her work and with difficulty continue to walk about Recently she has been taking Wistar's Balsam of Wild Cherry and already has she so far regained her health as to be able to resume her labors

This is but a single case but it is one at least, in which we cannot doubt the efficacy of the medicine

The former "New England House, alias Washingtonian House," has been recently enlarged, re-modeled, thoroughly repaired, and opened by the subscribers, as the

BANGOR TEMPERANCE HOUSE.

To the Public we beg leave to say, that in the entire renovation of this House, the proprietors had in view the comfort and convenience of the traveling community, more than "dollars and cents"—that its fitting up and furnishing were designed to place its rank with the first Hotels in New England.

Strict Temperance principles in its management, we pledge ourselves to adhere to—and aside from alcoholic drinks, will endeavor to give our patrons accommodations inferior to no other House, and on as reasonable terms.

Connected with this establishment is a good STABLE, with an experienced Ostler always on hand, and at home in this department.

RUST PROOF IRON,

FOR

ROOFING, WINDOW SHUTTERS, &c.

THE subscribers beg to call the attention of all those interested in roofing, to their GALVANIZED TIN PLATES, and to the many advantages which they possess over all metallic and other substances hitherto used for this purpose, possessing as they do, the strength and lightness of iron without its liability to rust, having now been tested several years, both in this country and in Europe. They are also less subject to expansion and contraction from sudden changes of the atmosphere, than common Tin Plate, Iron, Zinc, &c., or any other metal now used for roofing, and consequently form a much better and tighter roof; requiring far less frequent repair, whilst the first cost is but a trifle more.

The subscribers would also call the attention of all dealers and workers in metals, to the many other purposes to which Iron thus protected, can be applied. In general terms it is applicable to all articles of iron which it is desirable to protect from the action of the atmosphere. And they would especially call the attention of those interested in TELEGRAPHIC LINES, to their Galvanized Wire, which is now almost entirely used in Europe, and which answers every purpose as a conductor of electricity, costing only about one half as much as copper, and possessing equal durability with that metal.

Having lately erected works in this city for the purpose of galvanizing Nails, Spikes, Bolts, Wire, &c., they will be able to furnish any article which may be desired in a supply of Plates manufactured in Europe, constantly on hand, from 16 to 32 wire gauge. GEO. B. MOREWOOD & CO.

Nos. 74 and 76 Broadway, New York.

The Patent Right for this invention has been secured for the United States & Canada, in Great Britain, and other European Monarchies, all infringements will be taken to prevent all the introduction by importation or otherwise.

Instruction in French.

MADEMOISELLE MYHAN respectfully announces to the Ladies and Gentlemen of Bangor, that she is prepared to receive applications for her services as teacher of the French language, at Mr. VALENTINE'S, on Hammond street

Mlle. M. flatters herself that a continued residence for some years at the celebrated establishment of the *Sacre Coeur,* at Paris, where no other language than French was used either in hours of study or relaxation, will be a sufficient guarantee for her of the possession of *a pure Parisian accent.*

For her knowledge of the language, skill in teaching, and success with pupils, she invites an inspection of her references in Boston, &c.

As Mlle. M. has under consideration several eligible applications from other quarters, she would be particularly obliged to those who may desire to avail themselves of her services in Bangor, if they would apply as early as possible. She would be glad to be enabled to decide by the 10th proximo, whether it is practicable for her to make permanent arrangements at Bangor.

She is permitted to refer to Messrs. FREDERICK HOBBS and GEO. B. MOODY. [oct 26.

TIMBEY'S PATENT CAST-IRON

Water-Wheels.

Notice to Mill Owners.

THE undersigned having purchased of Theodore Timbey, of New York, the original inventor, the Patent Right of the above celebrated Wheels, for the State of Maine, now offers them for sale, and confidently recommends them as possessing more advantages than any other Wheels for Saw-Mills, which are offered for sale in this State. Besides its great power and speed, and its capacity of running under very light heads of water, and not being effected by back water, it has but two cents for each Wheel, which will allow all 'drift stuff' which is liable to get into the loom, to escape without filling them up.

It is now acknowledged by the most experienced and skilful mill-wrights and mill-men, that these Wheels excel for Saw-Mills any other Wheel known, and he refers to those which are now in operation in this vicinity, and more particularly to those now running in the mills in Upper Stillwater, side by side with the *celebrated* Stearn's Wheels, to prove that they surpass any other Wheels now in operation in this State.

These Wheels are now manufactured by Messrs. HINCKLEY & EGERY, of this city, who are authorised to dispose of the same with the Patent Right thereof, on the most reasonable terms.

CONSUMPTION CURED!

BUCHAN'S

HUNGARIAN BALSAM

OF LIFE.

THE

GREAT ENGLISH REMEDY

For Colds, Coughs, Asthma, and other Diseases of the CHEST and LUNGS.

BUCHAN'S HUNGARIAN BALSAM, the Great English Remedy for Pectoral and Pulmonary disease, still stands unrivalled and unsurpassed as the most elegant, agreeable, and effectual curative of these formidable complaints, now known to the civilized world

Three years of trial in the United States, during which time it has been distributed from Maine to Florida, has only served to establish its pre-eminent merit in all parts of the country, as the great and

ONLY RELIABLE REMEDY

in the worst cases of Pulmonary disease, and the best and most agreeable curative of all the slight forms of cold, cough and inflammation, that can possibly be used

SPITTING OF BLOOD! This frightful symptom of approaching Consumption, is speedily checked and prevented by the use of Buchan's Hungarian Balsam, which heals the affected membrane, removes the incipient tubercles, and restores those vital organs, the lungs, to a sound and healthy condition

REMEMBER THIS Spitting of Blood always arises from a tendency to Tuberculous disease and if not checked, at the outset, will sooner or later determine in death A person who raises blood once, will raise blood again, unless a proper curative is immediately employed

PAIN IN THE SIDE! This distressing symptom of Consumption arises from inflammation of the Lungs, or the Membrane called the Pleura, or from Bronchial affection of the air passages In either case it is a very dangerous indication of disease It prevents full and free breathing and wears away the natural strength of the system The cause of this symptom should be removed at once, and nothing can possibly effect that object so speedily and happily as the Great English Remedy, Discovered by Dr Buchan which is entirely vegetable in its ingredients, and perfectly harmless in all its qualities

LIVER COMPLAINT In cases of Consumption the Liver is always more or less affected, and also the Spleen, Pleura, and small intestines On dissecting Consumptive patients, Tubercles are often found in all these organs, particularly upon the Liver, which also becomes fatty, oily and swelled The effect of the Hungarian Balsam in diseases of the Liver, especially if the of an ulcerous nature, is direct and powerful *Simple disease of the Liver, unattended by Consumption is speedily cured by its use!*

WINTER COUGH. The harsh, dry, hacking winter cough which *afflicts old people*, and invalids in a low state of health is happily affected by the *Hungarian Balsam*

It warms, moistens, and stimulates the whole breathing apparatus, removes all morbid mucus, and other foul matter, purifies and animates the blood, improves the secretive power of the Liver, Spleen, and other large glands, and the digestive organs, and imparts new life to the wan and emaciated system

BRONCHITIS. Bronchitis, Difficulty of Breathing, Harsh Cough, a whitey expectoration, with all other symptoms caused by an affection of the air tubes leading from the throat to the lungs, are directly and specifically cured by the use of the admirable remedy invented by *Dr Buchan.*

This is a very painful, wearing and injurious complaint, and always has a powerful tendency to inflame and soften the Lungs, and thereby to induce the worst form of Pulmonary disease Be warned in time, ye afflicted! and employ this valuable remedy

TUBERCLES ON THE LUNGS! The Hungarian Balsam is the only popular remedy which has any power to dissolve, remove, and cure Tubercles on the Lungs Incredible as this is generally esteemed, we have the most abundant and conclusive evidence to sustain the assertion that such is its direct and immediate effect, in all cases where there is no natural organic defect In fact, so confident is the American Agent of its power to cure the worst form of this disease, that he prefers, (as he has frequently stated,) that it should be used by invalids who have been *PRONOUNCED INCURABLE* by the most eminent physicians, rather than by persons affected with some slighter form of disease—in order that its triumphs might be more apparent He boldly declares that it will cure Tuberculous disease and confidently solicits a trial in the *worst of cases*

EXPECTORATION! Free Expectoration is the most important object to be attained in all attempts to cure diseases of the Chest and Lungs The Cough, which is so distressing, is simply the result of a desire to expectorate; and as long as foul matter exists in the air passage, it will continue to irritate the membrane and provoke a cough Coughing is an attempt to throw off this matter, and expectoration gives great relief Inability to expectorate is the latter stages of Consumption is the cause of death

The Hungarian Balsam is a *great Expectorant*—It dissolves the morbid and diseased matter in the air passage, changes it from a thick, glutinous substance, to a thin harmless fluid, and throws it off with the greatest possible ease and comfort to the patient There is no better medicine in the world, if its expectorant quality alone be considered

SPASMODIC ASTHMA Simple or Spasmodic Asthma, has no better remedy than the Hungarian Balsam This painful and destructive affection which resists almost every thing else, yields to the all powerful influence of this great remedy, as readily as any other form of Pectoral disease

CONSUMPTION! Consumption has been graphically described as a *'Shrinking of one's self!'* The Hungarian Balsam, by its cleansing, warming, softening and animating power, produces, not shrinking but *expansion!*

Before its delightful influence, all chills, fever, night sweats, costiveness, blueness of the nails, a hot flushed skin, an uncertain strength, emaciation and decline—disappear, like the poisonous dews of night before the glorious morning sun! This is no delusion, but demonstrable fact, sustained by incontestible proof from all parts of the country

BE WISE TO-DAY! Delay in any case of Consumptive tendency, is emphatically Death under all ordinary treatment The Hungarian Balsam is a great ANTIDOTE, as well as CURATIVE. If you have any symptoms above described, be advised in time

Sold in large bottles at only one dollar per bottle

THE

GRAEFENBERG PILLS.

THERE ARE THE MOST CONCLUSIVE REASONS why that class of Medicines denominated "PATENT," should be made the means of incalculable and enduring blessings to the human family. Suppose, for example, that a high order of talent, long and sagacious observation, and great medical learning and experience are brought to bear upon the invention and manufacture of a PILL. Why may not this long devotion to this division of medical science be crowned with the success that attends the sacrifice of similar talents and toil in other things? There is no reason, and it is but the simplest dictate of the simplest common sense to say that a Pill thus produced will be as perfect an article as can be made by man. *Twenty five years devotion* to any one subject will give a man of ability the mastery over it This labor has been bestowed upon the

Graefenberg Vegetable Pills

and they are presented to the public with claims unparalleled in the whole history of medical science

It will be seen, in tracing the history of all great inventions, but they were not made or discovered until the arrival of what may be termed THE FULNESS OF TIME The mariner's compass, for instance, was not invented until in the "fullness of time" it was needed. The *loadstone* always lay at man's feet, but he never knew what a wonderful and unerring guide was treasured in its silent bosom, until the Divinely appointed time drew near when distant continents and islands were to be unveiled. Behold it now transferred to the binnacle of the adventurous sailor, enabling him to launch far away upon unknown Oceans, instead of timidly sailing within sight of familiar land marks!

So with the discovery of the New World, upon whose shores was to arise this Giant Nation to a power, a glory, a mission far beyond the conception of the wild dot tancy! The Old World had reached its highest destiny the "fulness of time" drew near for the revelation of the New, and behold the immortal Columbus from the forecastle of his drenched and leaky vessel, found it! So with the invention of printing, of steam, of the magnetic telegraph Each of these had its own "fullness of time," marked, distinct and Providential

IN MEDICAL SCIENCE THE SAME GREAT PHILOSOPHICAL PRINCIPLE IS EQUALLY MARKED Most beautiful are the illustrations and proofs of this which are to be found in the history of the world We can trace them from the Mosaic dispensations down to the present hour, all of them teaching us the lesson and giving us the hope that *something yet better* to heal human maladies is at hand

That the principle is as true of Medical as of Physical science, is clearly shown in the

GRAEFENBERG GAZETTE,

which is furnished gratuitously to all who wish it—The

Graefenberg Pills,

are deemed by all who have tested them to be an inconceivable advance upon all other medical combinations and discoveries hitherto known, and they are announced as

THE GREAT REMEDIAL TRIUMPH

The inventor of these Pills rests his theory upon no school nor dogma of ordinary medical teachers. Planting himself upon the revelation of the

ALMIGHTY CREATOR,

THAT

"THE BLOOD IS THE LIFE,"

he requires that his disciples and his patients *make pure the life current* that leaps through their veins and arteries, before they can hope for a PERMANENT cure Relief he can give them, and so can others, but bright and joyous health must come from a pure blood

But a most sad thought here comes to! So countless are the impositions which are practiced upon the public by pretenders, and so numerous and fearful are the medicines advertised, that the reader may be slow to believe in this Great Remedy A word, therefore, on this point.

In the first place, READ THE GRAEFENBERG GAZETTE No matter how sceptical you may now be, that paper will convince you Thousands *have been* convinced in every State and Territory in the Union, and among them distinguished statesmen, jurists, clergymen physicians, civilians The bare enumeration of their names would fill this page. Let the reader send to the most convenient agency for a copy of the Gazette, which can be had

GRATIS!!

In the second place, TRY THE PILLS It will cost but the merest trifle, and will introduce you to a medicine which you will deem a blessing to the end of your days

A thousand things press upon the minds of the advertisers which they would rejoice to say to the reader but the limits of this advertisement forbid But let any one afflicted with the following diseases make trial of the Graefenberg Pills, and they will be PERMANENTLY CURED!

Asthma,	*Flatulency,*
Bilious Complaints,	*Fluor Albus or Whites,*
Boils	*Gastric Fever,*
Bowels deficient action in,	*Green Sickness,*
Breast Pang,	*Gripes,*
Catarrh,	*Heartburn,*
Constipation,	*Head ache,*
Cough of Pregnancy,	*Hysterics,*
Costiveness,	*Incontinence of Urine,*
Diarrhœa,	*Indigestion,*
Difficult Breathing,	*Inflammation of Vital parts,*
Dyspepsia,	*Inflammation of the Stomach,*
Dyspeptic Consumption,	*Jaundice,*
Digestion imperfect	*Liver Complaints,*
Determination of Blood to the Head,	*Low Spirit.*
Ear Ach!,	*Menstruation, Suppressed or Painful*
Erysipelas,	*Nervous Disorders,*
Epilepsy	*Neuralgia,*
Fever—Intermittent, Nervous, Inter-mittent Remittent, Fever and Ague,	*Rheumatism,*
	Stomach various diseases,
	Wind

In all these or chronic disorders, these Pills achieve the most wonderful triumph HAVE THEY DEFY COMPETITION And as the susceptibility of the American constitution is to these diseases, they are aptly styled by some,

The Pill of the New World.

Their wonderful efficacy in these complaints arises from their power to OPEN THE PORES CLEANSE AND STRENGTHEN THE STOMACH AND BOWELS MAKE THE URINE FLOW HEALTHILY AND CLEAR AND TO GIVE TONE AND STRENGTH TO THE SYSTEM

It is impossible, within the limits of an ordinary advertisement, to give the reader the reasons for the most extraordinary success and spread of these Pills. But REASONS DO EXIST, which have abundantly satisfied the minds of thousands in this country, and among them the accomplished Physicians, Jurists, Clergymen, and private citizens, male and female

NUMEROUS CERTIFICATES of the wonderful efficacy of these Pills might be presented, but a certificate in these days is scarcely worth the paper on which it is printed. A few extracts from the correspondence of the Company, will, however, be given

FROM INDIANA

"Your enterprise is the enterprise of the day. Its magnitude will astonish its originators. It is destined to effect a complete revolution in the medical world"

FROM A JUSTICE OF THE PEACE IN WESTERN N. YORK

"I have sold a number of boxes to the citizens of this place They have given entire satisfaction, and they are destined to become the most popular Pill of the day."

FROM TOLEDO, OHIO

"Having heard so much and witnessed two or three cases treated in the mode directed by your Journal, I have thought it important you should have an agent at this place In my opinion, more good can be done in this business than by any other medicines, than by the old modes

I address you as the instance of a friend who is making a thorough trial of your remedies, and with complete success."

FROM A DISTINGUISHED GENTLEMAN OF BOSTON:

Gentlemen,

I cannot refrain from troubling you with a few lines to express my great pleasure in being able to say, that I have experienced the greatest relief from the effect of your Pills For many years I have suffered much from constipation, which has deranged my whole system, and I have not known a day's good health for many years past, and being an old man, I despaired of ever again enjoying life, but a friend recommended me to try your Pills, which I did, although without any confidence, the result, I am happy to inform you, has far exceeded my expectations, the cause of my suffering is nearly removed, and I feel my health and strength daily renewed, and I am satisfied that the merits of your Pills, when tested, must be acknowledged by the whole community, and will become the most popular medicine of the day"

—FROM JUDGE ———, OF GEORGIA:

SIR,

Since writing to you last upon the subject of my ill health, I have been taking your medicine, and am pleased to say, that they have been of great service to me, and if they continue to give me the relief I have already felt, I shall bless the day you sent them. I need not allude again to the sufferings I have before told you of, but intend to persevere, and hope to be able, the next time I write, to give you the happy intelligence of a perfect cure. I have heard of many instances in my neighborhood wherein they have performed some extraordinary cures"

FROM AN EPISCOPAL BISHOP

Gentlemen—I consider it to be the duty of every Christian to make known to the world any advantages that they may have derived by accident or from any discovery of their own, and with this sentiment strongly impressed on my mind, I feel great gratification in having it in my power to speak in the highest terms of the valuable discovery you have made in the production of your Pills. I was induced to try them, from the philosophical manner in which you have reasoned on the subject, and I must do myself the pleasure, and you the justice to say, that I had no conception so speedily an effect could be arrived at. My complaint has been that of the Liver, from which I despaired of getting better, but on taking your Pills, I find my general health, spirits and appetite so much improved that I hope to find myself able to endure, without bodily suffering, the duties of an arduous Profession. In future I will send to your agent for more Pills when needed. With great consideration and gratitude, I am, &c.

From every section of the entire country similar testimonials are daily received, but our limits forbid further extracts. ONCE TRIED, THE GRAEFENBERG PILLS WILL SUPERSEDE ALL OTHERS.

CONSUMPTION,

AND the best medicine known to man for Asthma of every stage, Liver Complaints, Bronchitis, Influenza, Coughs, Colds, Bleeding of the Lungs, Shortness of Breath, pains and weakness in the side, breast, &c. and all other diseases of the

PULMONARY ORGANS.

A very important disease over which this 'Balsam' exerts a very powerful influence, is that of a

DISEASED LIVER.

In this complaint it has undoubtedly proved more efficacious than any remedy hitherto employed, and in numerous instances when patients had endured long and severe suffering from the disease, without receiving the least benefit from various remedies, and when MERCURY has been resorted to in vain, the use of this Balsam has restored the LIVER to a healthy action, and in many instances effected

PERMANENT CURES,

after every known remedy had failed to produce the desired effect.

Opinion of a Regular Physician.

Exeter, Me, Sept 30, 1845

This certifies that I have recommended the use of Wistar's Balsam of Wild Cherry for diseases of the Lungs, for two years past, and many bottles to my knowledge have been used by my patients, all with beneficial results In two cases where it was thought confirmed consumption had taken place, the Wild Cherry effected a cure

SICKNESS IN CHILDREN

And the suffering which they undergo from "worms" often tend to a fatal termination, while the CAUSE is never suspected Offensive breath, picking at the nose, grinding the teeth during sleep, starting in sleep with fright and screaming troublesome cough, and feverishness, are among some of the *Prominent Symptoms* of the presence of worms A timely use of

SHERMAN'S WORM LOZENGES

Will immediately remove all these unpleasant symptoms, and restore to perfect health Sister Ignatius, Superior of the Catholic Half Orphan Asylum, has added her testimony in their favor to the thousands which have gone before. She states that there are over 100 children in the Asylum, and but they have been in the habit of using Sherman's Lozenges, and she has always found them to be attended with the most beneficial effects They have been proved to be infallible in over 400,000 cases.

CONSUMPTION,

Influenza, Coughs, Colds Whooping Cough Tightness of the Lungs or Chest may be cured Rev Darius Anthony was very low from Consumption, Jonathan Howarth, the celebrated temperance lecturer, was reduced to the verge of the grave by raising blood Rev Mr Dunbar, of New York the Rev Mr De Forest, Evangelist in the Western part of this state, Rev Sebastian Streeter, of Boston, the wife of Erasmus Dibble, Esq, in Malvern, and hundreds of others, have been relieved and cured by a proper use of

SHERMAN'S COUGH LOZENGES,

And no medicine has ever been offered to the public which has been more effectual in the relief of those diseases, or which can be recommended with more confidence. They allay all itching or irritation, render the cough easy, promote expectoration, remove the cause, and produce the most happy and lasting effects

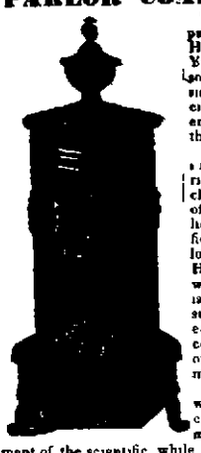
HEDENBERG'S

PATENT AIR-TIGHT

PARLOR COAL STOVE.



THIS STOVE was patented by Mr E L HEDENBERG, of New York, in 1845, and was sold by him to a considerable extent in that city last winter, giving entire satisfaction to those who used it

The subscribers having purchased the right to vend the article in this city now offer them to the public with the fullest confidence that, for Parlors, Chambers, Stores, Halls and Offices, where little or no pipe is to be used, they are superior in point of economy, comfort and convenience, to any other Stove now in the market

The principle on which the Stove is constructed will commend it to the judgment of the scientific, while a moment's observation of one in operation will secure the admiration of the practical man

A lengthy description of this article is unnecessary We prefer that it should be seen, believing that it will be found to possess those qualities for which all are looking in parlor and office Stoves viz beauty, durability cleanliness convenience in management, and ability to radiate the largest possible amount of heat before it passes from the stove By a constant circulation of air in the room through the Stove (entering under the base) around the cylinder which contains the fire, the air is kept in a state of the greatest purity

The Sugar-Coated Pills.

A NEW SARSAPARILLA PREPARATION.

To cure Diseases, Purify the Blood! To avoid them, keep it pure!!

That PREDISPOSITION which exposes the human frame to the infection and virulence of every class of disorders, proceeds directly or indirectly, from a morbid state of the system caused by

IMPURE BLOOD.

HALSEY'S SUGAR COATED MAGIC LIFE PILLS The originator of the only true and genuine Sugar coated Pills, most respectfully informs the enlightened public, that this new and elegant preparation can be obtained only from advertised agents and at the proprietor's establishment No 324 Broadway, N York—Price 25 cents a single box, 5 boxes for one dollar

G W LADD Agent for Bangor

Among the numerous remedies which stand reputable on the basis of an ancient name, are none perhaps which have acquired so great celebrity, and extensive use in so short a time as this invaluable article—They have gained their high reputation, alone by their good works Those who once try them, always use them again They are grateful to the stomach,—they improve the functions of secretion nutrition and circulation They restore digestion and appetite and create a natural warmth inwardly, which glows through the whole system, giving it greater vitality and animation The experience of thousands attest to their good effects After using them for a short time the hitherto wretched invalid finds that all disagreeable and unhealthy humors leave for ever his system His digestive organs perform their proper functions, his blood regains its wonted purity the oppressive sense of weakness and pain departs, and his body becomes endowed with renewed strength and vigor—while the mind resumes its original vivacity and clearness Such are the results produced by Halsey's Sugar coated Pills, the mildest, yet most effectual preparation of the class in use

In BILLIOUS complaints, Costiveness, Indigestion, Dyspepsy, and all other disorders of the stomach they produce their most happy results For Sores, Boils Saltrheum, Fever Erysipelas, Eruptions of the Skin Scrofulous complaints and many other like diseases arising from IMPURE BLOOD they have become highly celebrated Hundreds of certificates have been received from individuals who after having taken them for a few weeks, (according to the directions which accompany the box) were cured of the most afflicting cases of *scrofulous affections* They give *Good Blood for Bad* Bottles of the boasted Sarsaparillas, contain less of the true virtues of that valuable plant, and are less effectual, than a single box of these extraordinary Pills In Colds, Coughs, Influenza, Sore Throat Headache, Guildness, &c, they are recommended with entire confidence, the relief in these cases is quick and permanent For Fever and Ague, Fevers Asthma, Piles, Loss of Appetite, Dropsy, Jaundice Worms, Loseness, General Debility, and many of the various other diseases to which the human system is liable, they have proved an infallible remedy Their action on the bowels is of the mildest character, even *over doses* never cause griping or unpleasantness, yet they are searching and efficient It is impossible by words, to give an adequate idea of the great and good effects these pills produce and their superiority over every other remedy of a similar class a trial only will explain the wide difference The unhappy invalid after having *tested* but a *single box* of them, will with joy for the unexampled change wrought in his health, bear testimony to their uncommon virtues

N. B The *coating of sugar* adds nothing to the great virtues of the Magic Life Pills, it is their uncommon powers in promoting health, on which all their merits stand, notwithstanding this, they are the original sugar coated pills The proprietor made this valuable improvement to preserve their curative virtues entire as well as to render them pleasant to the taste, yet individuals of no integrity have counterfeited other pills, coated them, and through the base and silly pretension to a patent are distributing them about the country, deceiving the public by disposing of them unjustly through the already acquired reputation and popularity of the genuine *Halsey's Sugar-coated Pills* In order to get the true and original sugar coated pills, see that the engraved signature (G W Halsey) is on the label of each box, and buy only of advertised agents

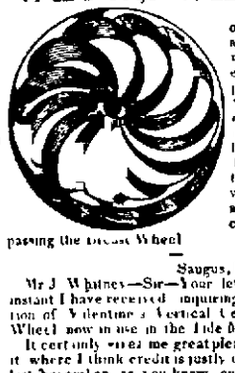
VALENTINE'S PATENT

REVERSING, CENTRIFUGAL

WATER-WHEEL.



The subscribers offer for sale the above WHEELS which are intended for upright or perpendicular shafts and they refer to the annexed certificates to show *that this Wheel is superior* to some Wheels which have been advertised and certified as superior

passing the Direct Wheel

Saugus, March 26 1845

Mr J Whitney—Sir—Your letter of the 24th instant I have received inquiring as to the operation of Valentine's Vertical Centrifugal Water Wheel now in use in the Tide Mills at Saugus

It certainly gives me great pleasure to give credit where I think credit is justly due Exchanged last November as you know one of the old fashioned tub wheels for one of Valentine's and, after four months' use of the same, I must say that it is one of the best wheels I ever saw

In the same Mills, at the same time, one of the Hard wheels was put in operation, but with all the commendation that the Hard Wheel has and indeed is worthy of, I must give the Valentine Wheel greatly the preference, and for these reasons—it consists of less, it wants less water is less liable to damage will run more hours and with less head and is capable of doing more business

The Valentine Wheel as near as I can calculate wants three fifths as much water as the Hard

Since the above wheel has been in operation, I have seen ground into good meal forty bushels of corn per hour with one run of stones

Yours with respect

BENJ F NEWHALL

I have been engaged as Miller in the Tide Mills aforesaid for eighteen years and I fully concur in the statements made by Mr Newhall

ISAAC COLLINS

Portland, March 17, 1845

Mr Samuel Waite—Sir We have to say to you, and through you to Messrs Hinckley & Egery Manufacturers of Bangor, that the Valentine Wheel exceeds in power and general excellence any previous expectations we were willing to conceive of it from your representations before we tried it in our own Paper Mill The 5½ feet diameter wheel, with our head of water, which is 14 feet, moves our tow engines which are of the largest size, with the theoretical discharge of 2.0 square inches of water

In short we most heartily recommend the Valentine Water Wheel as possessing of combining more of the requisite qualities of the very best Water Wheel, than any other known to us We invite those interested in the matter to visit our new Paper Mill at Cogin, five miles from Port and, Me

Respectfully yours

DAY & LYON

VALENTINE'S WATER WHEEL

[To the Editor of the Whig and Courier]

Milo, April 29, 1845

I have lately purchased of Messrs Hinckley & Egery one of Valentine's Patent Reacting Water Wheels which has been put in operation by Mr David M Clench, an experienced Mill wright of this town for propelling machinery in the Woollen Factory The wheel so far excels our expectation that I consider it an act of justice to the proprietors to recommend the Wheel to persons building factories or other Mills, as being superior to any other Wheel with which I am acquainted The Wheel is 5½ feet in diameter, and the head of water is 4 feet This drives one set of Woollen Mill chinery with fulling mill and picker The power is very near three times as much power as the 11 feet Tub Wheel which we have used heretofore The Wheel is not obstructed by back water, and goes sufficiently steady without the aid of a regulator—Persons interested in Water Wheels are invited to call at the Factory and examine for themselves

J W. CUSHING

The undersigned confidentially recommend this Wheel to the owners and operators of Manufactories,
